Ref: Nissan M2M Challenge 2022

It is with absolute delight that Breast Cancer Ireland can confirm that this years Nissan M2M cycle challenge raised in excess of €221,000. These funds, as agreed, will be split between Kilmacud Crokes Development Fund and Breast Cancer Ireland.

These funds, together with others raised during the year, help us to change the landscape, positively, of breast cancer into the future. We continue to invest significant funds into metastatic disease progression, with particular focus on the brain. It is the most challenging and one that we feel in time, when new preventative pathways are discovered, will help realise our ultimate goal of transforming this disease into a treatable illness long term.

We also continue to raise awareness on the importance of understanding good breast health amongst communities, companies, schools and sporting groups . With our five Outreach Coordinators spanning Leinster, Munster and Connacht we are able to reach out to over 35,000 people annually, with some early detected cases as a result #awarenesssaveslives.

Your efforts, every two years, in taking on this gruelling cycle challenge are immense , and your commitment to fundraise on our behalf is outstanding.

We are so grateful and appreciative of your support.

With sincere thanks and every good wish

Aisling Hurley
Chief Executive Officer
